## Banditbul Farming Association Corp.

### • Melon

### • Cherry Tomato

- Grand Prize at the Korea Organic Farming Distribution Awards.
- Quality Management Certification (ISO 9001).
- Acquisition of Environmental Management Certification (ISO 14001).
- Chemical-free Agricultural Product Certificate

The Banditbul Farming Association Corporation was established by over 80 farms that produce the 'red melon' with its red flesh and cherry tomatoes. The melon looks like an ordinary melon but is heavier and richer in sugar content, at 14-17brix (ordinary melons: 10-12) and a more delicious looking color and richer scent. It also contains more juice. The cherry tomato grown using an environmentally friendly method has great taste and quality, and uniform quality is maintained through an automated system.

### OVERVIEW

Golden Farm Food test farming of the saber bean, a plant that little was known about, in 1996. We also developed the processing technology that suits consumer preferences and contributed to the popularization of saber bean, playing a pioneering role in forming today's saber bean market. The farming and processing technologies that have been built over 20 years of corporate management provide us the cutting edge as the source technology against late starters and it allows us to make progress every year.

### PRODUCTS

#### • Honeyed Citron Tea • Honeyed Citron Tea • Honeyed Citron Tea • Lemon Tea

#### • Coffee

#### • Beverage

- As our factory is located in Goheung-county, the quality control of citron fruits in the farm is directly done by us in the spring and citrons are hygienically processed through high-end automatic fruit washer and cutting facilities in the autumn harvest. Sterilized vacuum packing of citron allows you to enjoy

the fresh flavor of citron tea for two-year expiration. Particularly, citron tea produced under low-temperature sterilizing facilities gives you the strong fresh flavor of original citron, compared to other companies' products.

"The mother nature is always waiting for you". We, HAOYOU harmonizes the gift from the nature with advanced high technology to produce the best Citron Tea. Blow your stresses and tiredness away with cup of HAOYOU Citron Tea and give yourself a little break. This is your opportunity to feel the greatness of the nature so please don't miss this chance. Please visit our web site, there are everything you need.

### OVERVIEW

## Gwangyang Green Apricot Farm

- **Plum Concentrate** : This is an alkaline food with a strong sour taste. It is great for relieving fatigue as it is rich in citric acid and various organic acids, and it suppresses the proliferation of harmful germs.
- **Formulated Plum Concentrate** : Plum and oligosaccharide are mixed in the ratio of 7:3, respectively, and fermented and matured in traditional jars aged over 50 years.

- Quality Management System Certificate
- Environmental Management System Certificate
- Korean Traditional Food Quality Certificate
- Taste of Namdo Certificate

We developed, manufactured and introduced plum products using plums as the main ingredient. We contributed to the increase of rural household income while placing the highest priority on national health. We are a traditional Korean food maker that prepares products by fermenting and maturing them in old jars that infuses the touch of ancestors using the effort and sincerity handed down through 3 generations.

## Goheung Pomegranate Eco-friendly Farming Manufacturing

Tea & Beverage

A-5 P124

### PRODUCTS

Including the aged and fermented formulated concentrate of 100% Goheung pomegranate, we manufacture and sell various pomegranate products ranging from pomegranate juice (pomegranate flower scent), pomegranate fruit drink (Goheung pomegranate liquid gold), pomegranate snack (Goheung pomegranate crispy roll), and fruit juice extract (women's fruit).

A corporation set up from around 300 farms in Goheung of Jeonnam, the chief production area of domestic pomegranate. We research the effectiveness of pomegranate, and purchase those of our members to produce and sell quality products. Goheung pomegranates grow in the mild temperature of fresh sea breezes and warm weather, and have outstanding pharmacological components including estrogen, tannin, and pectic substances. Moreover, its conspicuous taste is on another level when compared with other imported products.

## Hwangtorang Onion Extract Farming Association Corp.

Using the onions produced Muan, known for the best taste and quality in Korea, and 4 invention patents, we produce and distribute undiluted onion juice without adding water, preservatives, and sweeteners. Onions are processed with the nutritious outer peels intact and the moisture is evaporated in the process to produce concentrated juice.

- HwangtoNara Onion Juice

- HwangtoNara Purple Onion Juice

- Patent : Onion Juice Manufacturing Method / Steam Agitating and Heating Tank
- Patent : Automatic Onion Washing Machine / Onion Juice Extracting Method
- HACCP / Agriculture-Industry-Commerce Integrated Enterprise
- Venture Certificate / Clean Workplace Certificate
- Quality Certificate by the Governor of Jeollanam-do
- Approval for Use of Registered Trademark of Muan-gun

We are specializing in a single product, onion juice, and we were established in September 1, 2006. We are the first onion juice manufacturer to acquire HACCP certificate, venture certificate, and agriculture-industry-commerce integrated small and medium enterprise designation by upgrading onion juice with excellent technological strength and clean facilities to contribute to the advancement of farm households of Muan, Jeollanam-do.

# Indongju Maeul

- Honeysuckle Raw Rice Wine
- Honeysuckle Marinated Blue Crab
- Honeysuckle Pyeonghwaju
- Skate (Product of Chile / Product of Korea)

CERTIFICATIONS

- Governor of South Jeolla Province Quality Certificate
- Selected as New Intellectual / Mokpo Governor Citation
- Recommended for Liquor Brewery License by the Minister of Agriculture and Forestry
- New Woman Intellectual of South Jella Province
- Designated as South Jeolla Province Food Master
- South Jeolla Province Mokpo Food Master No. 1

OVERVIEW

Indongju Village, known as a renowned food company in South Jeolla Province and selected as a New Intellectual for Fermented Honeysuckle Liquor and its producing method, uses honeysuckle naturally grown in the clean fields or mountains to manufacture and distribute Indongju Raw Rice Wine and Honeysuckle Pyeonghwaju. In particular, Honeysuckle Raw Rice Wine has been consistently receiving favorable responses from many people as it maintains the taste of traditional raw rice wine while conveying the subtle taste and scent of the honeysuckle.

# Jayeon Nara Farming Association Corp.

- Pure Onion Juice
- Nature Onion Juice
- Nature Red Onion Juice

- Quality Certificate by the Governor of Jeollanam-do
- Patent : Onion Juice Manufacturing Method

Our products are made of Muan onions that are grown in the germanium-enriched red clay and the sea wind of the West Coast. In the beginning, we used the conventional method of boiling onions to make juice like competitors, but we felt that the method was insufficient for keeping the natural taste of onions. Today, we prepare our products by extracting juice from fresh onions using techniques we developed through many trials and errors.

Gaetteurak Bay Salt is a representative brand of Yeomsan, the millennial salt producing center. Using the ceramic plate bay salt produced at Yeongbaek Salt Pond, which won the Grand Prize for Environment-friendliness at the First Salt Pond Contest, we process the salt in a strict sorting process at a HACCP certified factory to achieve mineral balance. It is the best bay salt for cooking that won the KS First Class for the first time in Korea.
